Come explore some of New England's most beautiful trails with New England Horseback Riding and Driving Vacations at the Balsam's Resort in Dixville Notch, New Hampshire.

The Balsam's 15,000 acres of privately owned wilderness has over 60 miles of well maintained trails and carriage roads which climb over mountain tops with spectacular views and wind through pristine mountain lakes and fragrant fir and spruce forests.

Unknown to most horse enthusiasts, it is a horseman's paradise.... a veritable Acadia of the North Woods.

We offer 2-5 day riding and driving vacations. The rides average 3 hours, and they are best suited to intermediate and advanced level riders who can trot for extended periods of time, canter and who can easily control an energetic horse. We have learn to ride packages available for beginner riders.

Our group size is small, only 2-5 riders; and our guides are qualified instructors who will help you get to know your horse and improve your riding skills.

We have both english and western saddles. Our horses are well trained and energetic. They receive the best of care and are treated with love and respect. We have a variety of horses: Morgan's, Hackney crosses, Friesian sport horses, Andalusian/Percheron crosses, Welsh cobs, and a Standardbred. Most of our horses ride and drive.

Our driving vacations are suitable for someone who has never driven before, sit next to a knowledgeable carriage driver and learn everything from harnessing and hitching, to taking the reins and exploring the many scenic miles of dirt roads and wilderness trails. Or, if you are an experienced driver, you can drive your own carriage, 2 people per cart, in the company of a skilled guide.
